

Evaluate 350+ Critical Success Factors for Meaningful Use:

- *Strategy & Board/Executive Management Buy-In*
- *Investment Management & Governance*
- *Physician Readiness – CPOE, Practice EHR & HIE*
- *Evidence Based Culture*
- *Process & Change Management*
- *Technology Resources & Infrastructure*
- *Vendor Relationship*

HITECH VISION

“Enable significant & measureable improvements in population health through a transformed healthcare delivery system”

Meaningful Use of electronic health records and other clinical systems is an unprecedented challenge for most healthcare systems --- requiring complex and simultaneous change of technology, processes, organization structure and policy. While most organizations are able to address components of the legislation, gaps exist in meeting all of the requirements of Stage 1 Meaningful Use.

“Intermountain Healthcare identified the need to fill 26 of the 61 Stage 1 criteria, and 19 of the 29 criteria for security and privacy and despite the advances Kaiser made with its HealthConnect EHR there is work to do to meet Stage 1 MU.” Health IT News, Jan 2010

HITECH Readiness Score Card

HITECH compliance has the potential to drive dramatic reengineering of hospital-physician relationships, care delivery models and patient responsibility for health management. By combining strategies for technology deployment with clinical transformation, health systems will successfully transition from volume to outcomes based reimbursement.

The EMR Value Assessment™ and resulting Score Card help providers evaluate “organizational” readiness not just “information technology” readiness for this new environment. Based upon work in hundreds of health systems in a variety of healthcare delivery and vendor environments, we benchmark your status, identify your gaps, help you prioritize and make key decisions. In just a few short weeks, we help your team plan a course of action.

Participation Alternatives

There are two options for participation:

- Score Card Only – Rapid Assessment and Senior Management/Board Education
- Comprehensive Assessment – Detailed Assessment, Score Card, Senior Management/Board Education and Road Map Development
